

The Research Institute for Equitable Development (EQUIDE) at Universidad Iberoamericana in Mexico City, invites applications for a tenure-track position in public health. The appointment will be at the rank of Associate Professor and will begin in Summer 2018.

EQUIDE is a Research Institute focusing on poverty, public health and program evaluation. The key research topics in EQUIDE's public health area include: early determinants of health and nutrition, aging, chronic diseases, psychosocial determinants of health, behavioral-technological oriented health interventions, food insecurity and food poverty, and geospatial analyses (EQUIDE's research interests can be profiled on its webpage <http://www.equide.mx/>).

EQUIDE is located in the main campus of Universidad Iberoamericana in Mexico City. Mexico City is a dynamic large metropolitan area of close to 20 million residents and offers a wide-range of cultural, artistic and recreational activities. It is a node for many research opportunities in the public health discipline. EQUIDE has strong ties with other national and international universities like Yale, UCLA, LSE, and CIDE amongst others. It also collaborates with international organizations like UNICEF, and the World Bank, as well as civil society organizations.

DESIRED SKILLS AND EXPERIENCE

- ▶ Doctoral degree in Public Health, Public Policy, Economics, Psychology or Sociology (or closely related fields).
- ▶ Fluent in English and with good Spanish abilities.
- ▶ With knowledge and 2 years of experience in at least 2 of the following areas:
 - Nutrition and health in early stages of life (i.e. breastfeeding, early child development).
 - Aging and pensions
 - Food insecurity
 - Community programs targeting chronic conditions (i.e. diabetes, hypertension)
 - Psychosocial determinants of health
 - Use of technology for community health interventions (i.e. mHealth)
 - Health and nutrition program evaluation
- ▶ A record of excellence in collaborative research, supported by academic publications, fieldwork, etc.

PREFERRED QUALIFICATIONS

- ▶ Demonstrated ability to work in collaboratively research with multidisciplinary and multicultural groups.

- ▶ Evidence of leadership in fieldwork and/or grant writing.
- ▶ Experience in teaching undergraduate and/or graduate courses including but not limited, to courses in Biostatistics, Epidemiology, Program Evaluation, Policy Analysis and/or Research Methods
- ▶ Experience in disseminating research outcomes through policy briefs and social media.

SELECTION PROCESS

The selection process will be in hands of a recruitment committee. It will be based on the individual's credentials, interview, and meetings with faculty of EQUIDE. During the first stage the committee will review the candidate's documents. Those selected for the second stage will be invited to Universidad Iberoamericana for interviews and will be asked to present a paper or piece of research in a seminar.

SALARY

Salary will be commensurate with qualifications and experience. Universidad Iberoamericana offers a full benefit package to all employees.

SUBMISSION GUIDELINES

Applicants should send by email to Dr. Mireya Vilar-Compte (mireya.vilar@ibero.mx) their CV, a cover letter, 2 letters of recommendations, and an academic paper (preferably already published).

Deadline for applications: Abril 27th, 2018.
